

**Amendments to the Specification:**

Please amend the following paragraph beginning at page 2, line 5 as follows:

5       Therefore, ~~the working efficiency is extremely low, and besides there was an~~  
~~anxiety that the mounting precision is lowered.~~ Consequently, productivity (working  
efficiency) is low, and camera placement accuracy is poor.

Please amend the following paragraph beginning at page 3, line 9 as follows:

10       With such a configuration, the camera module can be easily exchanged when the  
camera module is found to be ~~defective,~~ defective.
